

## Easier Wireframing and Prototyping

Design using comprehensive, built-in libraries for Wireframe, Material Design, iOS and Web - or upload your existing designs.

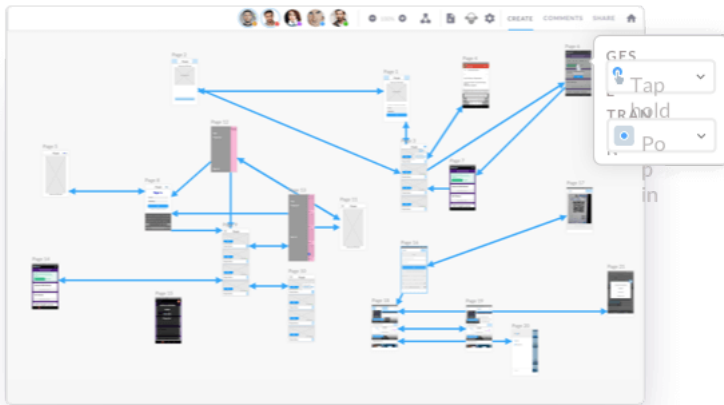

## Live Video Hangouts, Comments and Chat

Connect product owners, designers and developers in interactive video sessions to share ideas without ever leaving Fluid UI.

## Design on Desktop. Test on Mobile.

Designing for Android or iOS? Create your prototype while testing with the dedicated player apps for Android (/android) or iOS (/ios).

## Collaborative, real-time wireframing

Great products are built by great teams. Design together in real-time no matter where your people are in the world.

Used by the **very best** product design teams in the world

"Check out @FluidUI (<https://twitter.com/fluidui>) for the best prototyping software I have ever used."
